PROFILE

Front End Developer with a passion for building innovative software solutions. Eager to reenter the job market after a dedicated two-year break, I bring 3+ years of professional experience in front-end, web, and mobile software development using JavaScript, HTML, and CSS. With expertise in React.js, TypeScript, and Node, I deliver responsive and accessible web pages that display data information effectively.

WORK EXPERIENCE

FRONT END ENGINEER
Ti.Saúde (STARTUP) | Brazil
Mar 2018 - Jan 2021

- Wrote high-quality, clean, efficient, and well-documented code to create reusable and modular components using HTML5, CSS3, and JavaScript.
- Collaborated with the development team to troubleshoot and resolve user-reported issues, providing timely and effective solutions.
- Assisted in maintaining and enhancing existing applications, making updates or fixes as required.
- Worked closely with senior engineers to understand the codebase and provided support for bug fixes, performance improvements, and feature enhancements.
- Participated in code reviews and contribute to a rich end-user dashboard experience.
- Maintained documentation and knowledge base articles to support internal and external users with common inquiries and troubleshooting steps.
- Collaborated with backend developers to integrate the front-end application with the necessary APIs for fetching and updating data.
- Promoted efficient development and high-quality user experiences.
